

Trinity College, Dublin, Ireland, June 24th - June 27th 2009

Congress Programme

Wednesday 24 th June		
11.30	Executive Meeting	Location: The Library Room, The Royal College of Physicians
12.30	Faculty Meeting	Location: The Library Room, The Royal College of Physicians
14.00	Registration Open	Location: Upper Concourse, Arts Building
14.00	CTWG Meeting	Location: The Library Room, The Royal College of Physicians
17.30	Opening Ceremony and Reception - Complimentary (open to all delegates)	Location: Royal College of Surgeons

Thursday 25 th June		
06.45	Registration Open	Location: Upper Concourse, Arts Building
07.30	Welcome - Mary Harney Minister for Health and Children	Location: Ed Burke Theatre
07.40	Session 1: Epidemiology and Prevention Location: Ed Burke Theatre Chair: Scott D'Amours, Martin Bjorck	
07.40	History of WSACS and ACS	Speaker: <i>Michael Sugrue</i>
07.48	World Wide Perspectives on ACS	Speaker: <i>Manu Malbrain</i>
07.56	Prediction of ACS	Speaker: <i>Zsolt Balogh</i>
08.04	Preventing ACS	Speaker: <i>Jan De Waele</i>
08.12	Is ACS Cause or Symptom of MOF?	Speaker: <i>Michael Cheatham</i>
08.20	Heretic or Hero - A stay of execution?	Speaker: <i>Peter Bautz</i>
08.30	3 Short Papers - 5 Minutes Presentation and 3 Minutes Discussion Location: Ed Burke Theatre Chair: Frank Keane, Juan Duchesne	
	A Prospective Evaluation of the Protocolized Management of Intra-Abdominal Hypertension and the Abdominal Compartment Syndrome Speaker: <i>Edward Kimball (ref:110)</i>	
	The Impact of Increased Intra-Abdominal Pressure on Functional Hemodynamics Speaker: <i>Manu Malbrain (ref:140)</i>	
	The Impact of WSACS.Org on IAH/ACS Education Worldwide Speaker: <i>Michael Cheatham (ref:151)</i>	
08.55	Case Scenario Location: Ed Burke Theatre Panel: <i>Manu Malbrain, Ari Leppaniemi, Alastair Windsor, Leanne Hunt, Audience member</i>	
09.30	5 Mini Papers - 4 Minutes Presentation and 2 Minutes Discussion Location: Ed Burke Theatre Chair: Frederick Moore, Andrew Peitzman	
	Subcutaneous Linea Alba Fasciotomy, Does it Really Work? Speaker: <i>Ari Leppaniemi (ref:100)</i>	
	The Influence of Diuretic Use and Negative Fluid Balance on Intra-Abdominal Pressure in Critically Ill Patients Speaker: <i>Inneke De laet (ref:141)</i>	
	The Fate of Abstracts Presented At WCACS 2007 Speaker: <i>Jan De Waele (ref:122)</i>	
	Risk Factors for Intra-Abdominal Hypertension in Mechanically Ventilated Patients Speaker: <i>Annika Reintam (Ref:89)</i>	
10.00	Morning Tea with Trade and Posters	

4th World Congress Abdominal Compartment Syndrome

Thursday 25th June (continued)

10.30	Session 2: Monitoring Location: Ed Burke Theatre Chair: Edward Kimball, Andrew Kirkpatrick	
	Current Options for IAP Monitoring	Speaker: <i>Jan De Waele</i>
10.40	Effect of IAH on Cardiovascular Monitoring	Speaker: <i>Michael Cheatham</i>
10.50	Perfusion Monitoring in Clinical Practice	Speaker: <i>Frederick Moore</i>
11.00	Respiratory Monitoring	Speaker: <i>Paolo Pelosi</i>
11.10	4 Short Papers - 5 Minutes Presentation and 3 Minutes Discussion Location: Ed Burke Theatre Chair: Carlos Ordonez, Zsolt Balogh	
	Sofa Score Corrected for Intra-Abdominal Pressure or Abdominal Perfusion Pressure Does Not Allow Better Outcome Prediction in Mixed ICU Patients Speaker: <i>Manu Malbrain (ref:137)</i>	
	Colonic Ischaemia And Intra-Abdominal Hypertension Following Open Surgery For Ruptured Abdominal Aortic Aneurysm.A Prospective Study Speaker: <i>Martin Bjorck (Ref:169)</i>	
	Do Patients with an Intra-Abdominal Pressure (IAP) Greater than 20mmhg get ACS? Speaker: <i>Madhuri Anupindi (ref: 66)</i>	
11.45	Case Scenario Location: Ed Burke Theatre Panel: <i>Paolo Pelosi, Rao Ivatury, Martin Bjorck, Timothy Fabian, Dieter DeBergh</i>	
12.30	Lunch Session 1: The Latest in IAP Monitoring Location: Dining Hall Chair: Michael Sugrue, Timothy Fabian Panel: <i>Martin Bjorck, Mark Bowyer, Jun Oda, Rao Ivatury, Andrew Peitzman</i> <i>Sponsored by Wolfe Tory Medical</i>	Lunch Session 2: Cardiovascular Monitoring in ACS Location: Atrium Chair: Jan De Waele, Inneke De laet Panel: <i>Michael Cheatham, Frederick Moore</i>
13.30	Session 3: Supportive Therapy in IAH Location: Ed Burke Theatre Chair: John Reynolds, Michael Cheatham	
13.30	Session 4: Critical Care/Nursing issues in ACS Location: J.M Synge Theatre Chair: Manu Malbrain, Leanne Hunt	
13.30	Alternative Fluid Resuscitation Strategies in IAH Speaker: <i>Rao Ivatury</i>	Peritoneal ascites, cytokines and ACS Speaker: <i>Gary Nieman</i>
13.40	Enteral Feeding in ACS Speaker: <i>Frederick Moore</i>	ICP and IAP Monitoring are they Related? Speaker: <i>Juan Duchesne</i>
13.50	Problems with Standard Physiological Monitoring Speaker: <i>Andrew Kirkpatrick</i>	Preventing IAH Induced Acute Renal Failure, Can we do it? Speaker: <i>Michael Sugrue</i>
14.00	CTWG and it's Relevance Speaker: <i>Edward Kimball</i>	Hepatorenal Syndrome is due to Untreated IAH Speaker: <i>Inneke De laet</i>
14.10	5 Short Papers - 5 Minutes Presentation and 3 Minutes Discussion Location: Ed Burke Theatre Chair: Peter Mackay, Alastair Windsor	
	Non-Invasive Measurement of Intra-Abdominal Pressure by Assessment of Abdominal Wall Tension Speaker: <i>Madhi Salih (ref:142)</i>	The measurement of intraabdominal pressure in pregnancy Speaker: <i>Leyla Baghirzada (ref: 27)</i>
	Percutaneous Drainage for Intra-Abdominal Hypertension and Abdominal Compartment Syndrome:A Prospective Cohort Analysis Speaker: <i>Michael Cheatham (ref:154)</i>	The Influence of Intra-Abdominal Hypertension on Intestinal Redox Status, Apoptosis and Barrier Function Speaker: <i>Cheng Jun-Tao (ref:65)</i>

Thursday 25th June (continued)	
Linea Alba Fasciotomy: Novel Alternative in Trauma Patients with Secondary Abdominal Compartment Syndrome Speaker: <i>Juan Duchesne (ref:60)</i>	Intra-Abdominal Hypertension is a Risk Factor for Acute Renal Failure Requiring Renal Replacement Therapy in ICU Speaker: <i>Annika Reintam (ref:87)</i>
World Initiative on Abdominal Hypertension Epidemiology, A Unifying Project (Wake-Up): A Metabase Analysis On Intra-Abdominal Hypertension in Critically Ill Patients Speaker: <i>Manu Malbrain (ref:125)</i>	The Effect of Retroperitoneal Haematoma on Intra-Abdominal Hypertension Speaker: <i>Karlijn van Wessem (ref:131)</i>
Does the Iliac/Inferior Vena Cava Central Venous Pressure (IVCP) Correspond Well with IAP Measured Via The Bladder?: A Multicentre Analysis Speaker: <i>Bart De Keulenaer Bl (ref:95)</i>	Diaphragmatic Phenotypic Adaptation Following Chronically Increased Intra-Abdominal Pressure Speaker: <i>T.S Papavramidis (ref:135)</i>
14.50 Afternoon Tea with Trade and Posters	
15.20 Session 5: Ventilation in ACS Location: Ed Burke Theatre Chair: John Laffey, Zsolt Balogh	Session 6 Non Operative Treatment Location: J.M Synge Theatre Chair: Karen Go, Scott D'Amours
15.20 Is there a Role for Paralysis in ACS? Speaker: <i>Paolo Pelosi</i>	When Does Peritoneal Dialysis Work in ACS? Speaker: <i>Jun Oda</i>
15.30 How to Achieve Lung Recruitment Safely in ACS Speaker: <i>Frederick Moore</i>	Diuretics May Have a Role in Reducing IAP? Speaker: <i>Inneke De laet</i>
15.40 Lung Injury and its Impact in ACS Speaker: <i>John Laffey</i>	Negative Pressure Therapy Speaker: <i>Mark Kaplan</i>
15.50 Cutting Edge: Critical Care - 3 key points of Day 1 Speaker: <i>Juan Duchesne</i>	Cutting Edge: Surgery - 3 key points of Day 1 Speaker: <i>Andrew Kirkpatrick</i>
16.00 9 Mini Papers - 4 Minutes Presentation and 2 Minutes Discussion Location: Ed Burke Theatre Chair: Andrew Peitzman, Timothy Fabian	9 Mini Papers - 4 Minutes Presentation and 2 Minutes Discussion Location: J.M Synge Theatre Chair: Frederick Moore, Paolo Pelosi
Can Femoral Central Venous Pressure be used to Predict Intra-Abdominal Hypertension in Mechanically Ventilated Patients? Speaker: <i>Bart De Keulenaer Bl (ref:96)</i>	Adrenal Function in Patients with Intra-Abdominal Hypertension Speaker: <i>Jan De Waele (ref:139)</i>
Secondary Intra-Abdominal Hypertension: New Animal Model Speaker: <i>Osamu Yoshino (Ref:126)</i>	Clear Algorithms for Open Abdomen Treatment to Improve the Outcome after Emergency Endovascular Aneurysm Repair for Ruptured Abdominal Aortic Aneurysms Speaker: <i>Dieter Mayer (ref:153)</i>
The Clinical Significance of Postinjury Intra-Abdominal Hypertension Speaker: <i>Zsolt Balogh (ref:128)</i>	Porcine Dermis Outperforms Human Dermis as a Biologic Mesh Speaker: <i>Howard G. Smith, MD (ref:155)</i>
Non-Invasive Measurement of Intra-Abdominal Pressure by Assessment of Abdominal Wall Tension: Assessment of Normal Values in Healthy Volunteers Speaker: <i>Madhi Salth (ref:143)</i>	The Use of Vac Therapy as an Effective Modality to Reduce Intra-Abdominal Pressure and Enhance Outcomes in Trauma Patients with an Open Abdomen Speaker: <i>Mark Kaplan, Md, FACS (ref:163)</i>
Changes in the Abdominal Pressure Induced by Abdominoplasty in Healthy Women Speaker: <i>Alejandro Gonzalez-Ojeda MD. (ref:152)</i>	The Open Abdomen: Different Indications, Different Outcomes Speaker: <i>Clay Cothren, Md (Ref:40)</i>
Effect of Fibrin Glue in the Mechanical Resistance and Healing of Left Colon Anastomoses in Rats Submitted to Abdominal Hypertension Speaker: <i>Alejandro González-Ojeda, M.D. (ref:158)</i>	Are we Coding Correctly; or at all for the Abdominal Compartment Syndrome? Speaker: <i>Lee Kristofferson (ref:93)</i>
High Fascial Closure-Rate with Vac- And Mesh Mediated Traction (VACM) After Long-Term Treatment with Open Abdomen (OA) Speaker: <i>Dr. Thordur Bjarnason (Ref:45)</i>	Comparison of Intra - Gastric Pressure with Intra - Abdominal Pressure in Children Undergoing Laparoscopic Surgery Speaker: <i>Dr J M Morgan (Ref:129)</i>

4th World Congress Abdominal Compartment Syndrome

Thursday 25th June (continued)

	Increased Nosocomial Infection and Ventilator Dependence Is an Impetus for Earlier Split-Thickness Skin Grafting In Selected Patients Speaker: <i>Glenn P. Miller Jr., Md (Ref:55)</i>	Continuous Microdialysis in Critical Intra-Abdominal Hypertension: A Novel Approach to Trace Metabolic Organ Derangements before they are Detectable by Conventional Monitoring Techniques Speaker: <i>Dr. Med. Emanuel Benninger (ref:61)</i>
	The Effect of Body Mass Index (BMI) on Intra-Abdominal Pressure Measurements Speaker: <i>Bart De Keulenaer (Ref:16)</i>	Intra-abdominal pressures in critically ill trauma patients using a novel motility capsule Speaker: <i>Stefan Rauch, M.D</i>
17.00	High Court Litigation Case 124/2007	Location: Ed Burke Theatre
17.30	Close of Day	
19.00	Irish Night (optional)	Location: Old Jameson Distillery

Friday 26th June

06.30	Breakfast <i>Delegates should arrive and eat early</i>	Location: <i>Outside Theatre</i>
06.45	Breakfast Session 1: Fluids the Good, the Bad & the Ugly Location: Ed Burke Theatre Chair: <i>Michael Cheatham, Manu Malbrain</i> <i>Sponsored by Fresenius Kabi</i>	Breakfast Session 2: Fistulae, Aetiology and Management Location: J.M Synge Theatre Chair: <i>Timothy Fabian, Frederick Moore</i> <i>Sponsored by Covidien</i>
08.00	Session 7: Common Clinical Conditions Location: Ed Burke Theatre Chair: <i>Juan Duchesne, Lee Kristofferson</i>	
	Pancreatitis and ACS. Which one kills the Patient?	Speaker: <i>Ari Leppaniemi</i>
08.10	Burns and ACS	Speaker: <i>Jun Oda</i>
08.20	How to Manage IAH in Ruptured AAA Patients	Speaker: <i>Martin Bjorck</i>
08.30	Remember it may be Polycompartment Syndrome	Speaker: <i>Manu Malbrain</i>
08.40	Military experience with ACS	Speaker: <i>Mark Bowyer</i>
08.50	4 Short Papers - 5 Minutes Presentation and 3 Minutes Discussion Location: Ed Burke Theatre Chair: <i>Rao Ivatury, Karen Go</i>	4 Mini Papers - 4 Minutes Presentation and 2 Minutes Discussion Location: J.M Synge Theatre Chair: <i>Michael Cheatham, Martin Bjorck</i>
	Natural History and Incidence of Intra-Abdominal Hypertension and Abdominal Compartment Syndrome in Burn Patients Speaker: <i>Ann Jacobs (ref:150)</i>	Abdominal Compliance Variation after Pancreatic Pseudocyst Percutaneous Drainage Speaker: <i>T.S Papavramidis (ref:133)</i>
	Measuring Intra-Abdominal Pressure Only in Pre-Selected Risk Patients is Not Enough Speaker: <i>Annika Reintam (ref:88)</i>	Liver Dysfunction Caused By Abdominal Compartment Syndrome in Septic Surgical Patients Speaker: <i>Zsolt Bodnár (ref:156)</i>
	Gastro P/V Prototype Device for Intra-Abdominal Pressure Measurement Speaker: <i>Annika Reintam (ref:138)</i>	The Effects Of Hyperthermic Intra-Operative Peritoneal Lavage On Intra-Abdominal Pressure In An Experimental Model Of Peritonitis Speaker: <i>Robert B. Sanda (ref:33)</i>
	Renal Replacement Therapy with Net Ultrafiltration Lowers Intra-Abdominal Pressure in Critically Ill Patients Speaker: <i>Manu Malbrain (ref:120)</i>	V.A.C. Abdominal Dressing – A Retrospective Study in the Treatment of the Open Abdomen Following Secondary Peritonitis Speaker: <i>Thomas Wild (ref:47)</i>
09.20	Case Scenario Location: Ed Burke Theatre Panel: <i>Zsolt Balogh, Mark Bowyer, Paolo Pelosi, Janeth Chiaka Ejike, Alastair Windsor</i>	
10.00	Morning Tea with Trade and Posters	

Friday 26th June (continued)		
10.30	<p>Session 8 Damage Control Location: Ed Burke Theatre Chair: <i>Ari Leppaniemi, Crystal Wilson</i></p>	<p>Session 9 Nursing Care Location: J.M. Synge Theatre Chair: <i>McKay, Edward Kimball</i></p>
10.30	<p>Advances in Open Abdomen Speaker: <i>Rao Ivatury</i></p>	<p>Respiratory Care in ACS Speaker: <i>Paolo Pelosi</i></p>
10.40	<p>Haemorrhage Control in Preventing ACS Speaker: <i>Scott D'Amours</i></p>	<p>Latest in IAP Monitoring Speaker: <i>Manu Malbrain</i></p>
10.50	<p>Transferring Open Abdomens Speaker: <i>Mark Bowyer</i></p>	<p>Proning and Rolling Speaker: <i>Andrew Kirkpatrick</i></p>
11.00	<p>10 Mini Papers - 4 Minutes Presentation and 2 Minutes Discussion Location: Ed Burke Theatre Chair: Edward Kimball, Crystal Wilson</p>	<p>10 Mini Papers - 4 Minutes Presentation and 2 Minutes Discussion Location: J.M. Synge Theatre Chair: Jan De Waele, Martin Bjorck</p>
	<p>Clinical Consequences of the Intra-Abdominal Hypertension in Sap Speaker: <i>Haralds Plaudis (ref:26)</i></p>	<p>Primary Closure of the Open Abdomen Using the Abdominal Reapproximation Anchor (Abra) System® Speaker: <i>Michael Casey (ref:97)</i></p>
	<p>Predictive Value of Consensus Risk Factors in Determining Intra-Abdominal Hypertension Speaker: <i>Madhuri Anupindi (ref:68)</i></p>	<p>The Effect of Body Positioning on Intra-Abdominal Pressure Measurements Speaker: <i>Bart De Keulenaer (ref:17)</i></p>
	<p>Continuous Measurement of Bladder Pressure is Equal to Discontinuous Measurement of the Bladder Pressure via the Kron's Method Speaker: <i>Martijn Hommes (ref:105)</i></p>	<p>Understanding the Inferior Epigastric Vessels- A Potential Key to Preventing Haematoma Related ACS Speaker: <i>Laura Connolly (ref:78)</i></p>
	<p>The Effect of Bladder Instill Volume on Intra Bladder Pressure When Measured With a Thirty Degree Head of Bed Elevation in Critically Ill Patients Speaker: <i>Horbal Shuster, M. (ref:57)</i></p>	<p>Current Patterns of Subcutaneous Thromboembolic Prophylaxis Could Lead to ACS Related Haematomas? Speaker: <i>Gavin Sugrue (ref:79)</i></p>
	<p>Reliability of Intra Bladder Pressure Measurements Taken In the Supine Position with a Thirty Degree Head of Bed Elevation Speaker: <i>Horbal Shuster, M (ref:58)</i></p>	<p>Survey on the Awareness of Portuguese General Surgeons about the Measurement of Intra-Abdominal Pressure and Prevention of Abdominal Compartment Syndrome Speaker: <i>Silvia Costa (ref:101)</i></p>
	<p>Analysis of the Bacterial Translocation Caused By IAH Speaker: <i>Georgi Petrov Deenichin (ref:31)</i></p>	<p>Intra-Abdominal Pressure Measurement with the Foleymanometer Does Not Increase Urinary Tract Infection Speaker: <i>Manu Malbrain (ref:119)</i></p>
	<p>A Comparrison of Methods to Measure Intra Abdominal Pressure: Krohns Method With and Without Fluid Instillation Prior To Measurement Speaker: <i>Leanne Hunt (ref:115)</i></p>	<p>Management of Enteric Fistulas in the Open Abdomen Using Vacuum Assisted Closure Therapy Speaker: <i>Mathieu D'hondt (ref:51)</i></p>
	<p>Survival of Trauma Patients with Tertiary Abdominal Compartment Syndrome after Damage Control Laparotomy with Open Abdomen Speaker: <i>Carlos Ordoñez (ref:157)</i></p>	<p>Intestinal Microcirculation, Barrier Function and Morphology During Low Grade IAH/ Experimental Laparoscopy In Pigs Speaker: <i>Kenth Johansson (Ref:49)</i></p>
	<p>Reduction of Intestinal Histopathology with Peritoneal Negative Pressure Therapy in a Porcine Model of Abdominal Compartment Syndrome Speaker: <i>Louis A. Gatto Phd (ref:44)</i></p>	<p>Have Routines for Recording IAP And Awareness if IAH Improved In Sweden Between 2006 And 2008? Speaker: <i>Kenth Johansson (ref:50)</i></p>
	<p>The Influence of Intra - Abdominal Hypertension(IAH) and the Role of Ischemic Preconditioning (IP) in the Hepatic Apoptosis and Regeneration Speaker: <i>Asonitis Spyridon (ref:92)</i></p>	<p>Effect of Ischemic Preconditioning on the Hepatic Function Under Increased Intraabdominal Pressure Speaker: <i>Avraamidou Alexandra (Ref:109)</i></p>

4th World Congress Abdominal Compartment Syndrome

Friday 26th June (continued)

12.00	Case Scenario Location: Ed Burke Theatre Panel: <i>Scott D'Amours, Paolo Pelosi, Michael Cheatham, Bart De Keulenaer, Carlos Ordonez</i>
12.30	Lunch Location: <i>Dining Hall</i>
13.00	Lunch Session 3: Consensus and Perspectives on Temporary Closure of the Open Abdomen Location: Examination Hall Introduction by: Chairman Michael Sugrue <i>Lunch Symposium Sponsored by KCI</i>
	Clinical Guideline and Classification for use of the VAC Abdominal Dressing and ABThera Open Abdomen Dressing Speaker: Dr. Martin Bjorck <i>The rationale, process and scope of the guideline and the new classification.</i>
	Clinical application of the VAC Abdominal Dressing according to the Guideline Speaker: Dr. Mark Kaplan <i>Clinical examples that illustrate the relevance of the Guideline and the classification, common principle in trauma or abdominal sepsis, systemic and wound management.</i>
	Requirements of an optimal device for temporary closure as met by the ABThera Open Abdomen Dressing Speaker: Dr. Michael Cheatham <i>Description of requirements and the match with the ABThera characteristics, early experience and use, available or to be expected experimental data (incl. addressing low fistulation rate).</i>
	Working towards delayed primary closure of the Open Abdomen Speaker: Dr. Alastair Windsor <i>Address features and techniques to facilitate/prepare and obtain delayed primary closure.</i>
	Closure by co-chairman Paul Banwell referring to publication of KCI Guideline, Editorial on the Guidelines, and the expected full article.
14.00	Workshop Monitoring and Managing the Open Abdomen Location: Examination Hall <i>Workshop Sponsored by KCI (nos. limited) see next page for details *Free time for those not attending workshop</i>
16.00	Bi-annual General Meeting Location: Ed Burke Theatre
17.00	Close Of Day
17.30 -18.30	Trinity Long Room Reception Limited Numbers Location: Old Library, Trinity College
19.15	Gala Dinner (optional) Limited Numbers Location: Dublin Castle

WORLD CONGRESS WORKSHOP EXAMINATION HALL

FRIDAY 14.00-1600

(SPONSORED BY KCI)

Limited Numbers - Delegates need to pre-register

This practical workshop will discuss, demonstrate and troubleshoot key practical areas relating to abdominal dressing in the OR and ICU. Sessions will consist of cross-over practical sessions with group discussion and brief 5 minute presentations.

Act 1: The Patient in OR	
	Scene 1 2 am Saturday Night in the OR. Will I close the patient? Where to Go From Here Speaker: <i>Michael Sugrue (Video Presentation 3 min)</i>
14.03	Scene 2 Current Patterns in Abdominal Closure Speaker: <i>Michael Cheatham (3 min)</i>
14.06	Scene 3 Top 10 Mistakes You Can Make at 02.00 am Speaker: <i>Scott D'Amours</i>
14.10	Scene 4 The V.A.C.® Abdominal Dressing System: The Keys Speaker: <i>Mark Kaplan</i>
14.20- 14.40	Practical Application of V.A.C.® Abdominal Dressing System in the OR Group 1 (36 participants) Each of the six tables will personally experience the application of 3 Abdominal V.A.C.® Dressings. Each table will have 3 Faculty, 1 Surgeon, 1 Nurse and 1 KCI representative.
	Practical IAP Measurement Technique Group 2 (36 participants) Each of the six tables will demonstrate IAP and APP techniques Kron Technique, Foley, Manometer, AbViser, APP, Speigberg, Cimon
14.40- 15.00	Groups Cross Over
Act 2: The Patient in ICU	
15.00	Scene 1 Nursing Challenges – When the Patient Comes Back Speaker: <i>Leanne Hunt</i>
15.04	Scene 2 Measuring IAP Speaker: <i>Lee Kristofferson</i>
15.08	Scene 3 Management Dressing in ICU Speaker: <i>Mark Kaplan</i>
15.12	Scene 4 Isolating a Fistula Speaker: <i>Alastair Windsor</i>
15.20	Practical Isolation of Fistula 12 tables, each table will demonstrate the fistula isolation. The 6 participants at each table will each participate in fistula isolation.
Epilogue	
15.45	The 10 Keys to Perfect Abdominal Management Speaker: <i>Alastair Windsor</i>
15.55	End

4th World Congress Abdominal Compartment Syndrome

Congress Programme Continued

Saturday 27th June			
06.30	Breakfast <i>Delegates should arrive and eat early</i> Location: <i>Outside Theatre</i>		
06.45	<table border="1"> <tr> <td>Breakfast Session 3: When to Open/Close the Abdomen Location: Ed Burke Theatre Chair: <i>Zsolt Balogh, Rao Ivatury</i> Panel: <i>Mark Bowyer, Timothy Fabian, Inneke De laet, Andrew Peitzman, Scott D'Amours</i></td> <td>Breakfast Session 4: CTWG Location: J.M Synge Theatre Chair: <i>Jan De Waele, Bart De Keulenaer</i></td> </tr> </table>	Breakfast Session 3: When to Open/Close the Abdomen Location: Ed Burke Theatre Chair: <i>Zsolt Balogh, Rao Ivatury</i> Panel: <i>Mark Bowyer, Timothy Fabian, Inneke De laet, Andrew Peitzman, Scott D'Amours</i>	Breakfast Session 4: CTWG Location: J.M Synge Theatre Chair: <i>Jan De Waele, Bart De Keulenaer</i>
Breakfast Session 3: When to Open/Close the Abdomen Location: Ed Burke Theatre Chair: <i>Zsolt Balogh, Rao Ivatury</i> Panel: <i>Mark Bowyer, Timothy Fabian, Inneke De laet, Andrew Peitzman, Scott D'Amours</i>	Breakfast Session 4: CTWG Location: J.M Synge Theatre Chair: <i>Jan De Waele, Bart De Keulenaer</i>		
08.00	Session 10: Debate and Elder's Words of wisdom - 2min Location: Ed Burke Theatre Chair: <i>John Reynolds, Jan de Waele</i> Head to Head - <i>For v Against</i>		
08.00	Your Post-Laparostomy Patient has an MI and Needs Heparin and Antiplatelet Agents Now <i>Michael Sugrue v Hugh McCann</i> Elder: <i>Michael Cheatham 2min</i>		
08.15	The ICP is 28mmHg You should Decompress the Abdomen <i>Juan Duchesne v Mark Bowyer</i> Elder: <i>Timothy Fabian 2min</i>		
08.30	No Need to Decompress Kids Abdomens as they Don't get ACS <i>Janeth Chiaka Ejike v Ari Leppaniemi</i> Elder: <i>Frederick Moore 2min</i>		
08.45	Post AAA Patients with IAH Should Not be Decompressed <i>Andrew Peitzman v Martin Bjorck</i> Elder: <i>Rao Ivatury 2min</i>		
09.00	You Should Give Inotropes Not Fluids in Hypotensive Patients to Avoid ACS <i>Zsolt Balogh v Paolo Pelosi</i> Elder: <i>Mark Kaplan 2min</i>		
09.15	Case Scenario Location: Ed Burke Theatre Panel: <i>Zsolt Balogh, Mark Bowyer, Timothy Fabian, Juan Duchesne, Inneke De laet, Leanne Hunt</i>		
10.00	Morning Tea with Trade and Posters		
10.30	<table border="1"> <tr> <td>Session 11: How to Reconstruct Location: Ed Burke Theatre Chair: <i>Inneke De laet, Alastair Windsor</i></td> <td>Session 12: Critical Care Challenges Location: J.M Synge Chair: <i>John Laffey, Pamela Hruska</i></td> </tr> </table>	Session 11: How to Reconstruct Location: Ed Burke Theatre Chair: <i>Inneke De laet, Alastair Windsor</i>	Session 12: Critical Care Challenges Location: J.M Synge Chair: <i>John Laffey, Pamela Hruska</i>
Session 11: How to Reconstruct Location: Ed Burke Theatre Chair: <i>Inneke De laet, Alastair Windsor</i>	Session 12: Critical Care Challenges Location: J.M Synge Chair: <i>John Laffey, Pamela Hruska</i>		
10.30	<table border="1"> <tr> <td>Component Separation Speaker: <i>Michael Sugrue</i></td> <td>Nursing Complications seen in ACS Speaker: <i>Leanne Hunt</i></td> </tr> </table>	Component Separation Speaker: <i>Michael Sugrue</i>	Nursing Complications seen in ACS Speaker: <i>Leanne Hunt</i>
Component Separation Speaker: <i>Michael Sugrue</i>	Nursing Complications seen in ACS Speaker: <i>Leanne Hunt</i>		
10.40	<table border="1"> <tr> <td>Free Flaps Speaker: <i>Ari Leppaniemi</i></td> <td>Future in Clinical Trials Speaker: <i>Jan De Waele</i></td> </tr> </table>	Free Flaps Speaker: <i>Ari Leppaniemi</i>	Future in Clinical Trials Speaker: <i>Jan De Waele</i>
Free Flaps Speaker: <i>Ari Leppaniemi</i>	Future in Clinical Trials Speaker: <i>Jan De Waele</i>		
10.50	<table border="1"> <tr> <td>Skin Substitutes Speaker: <i>Mark Bowyer</i></td> <td>Abdominal Perfusion Monitoring in IAH Speaker: <i>Michael Cheatham</i></td> </tr> </table>	Skin Substitutes Speaker: <i>Mark Bowyer</i>	Abdominal Perfusion Monitoring in IAH Speaker: <i>Michael Cheatham</i>
Skin Substitutes Speaker: <i>Mark Bowyer</i>	Abdominal Perfusion Monitoring in IAH Speaker: <i>Michael Cheatham</i>		
11.00	<table border="1"> <tr> <td>Meshes Speaker: <i>Timothy Fabian</i></td> <td>Correcting Coagulopathy in ACS Speaker: <i>Mark Bowyer</i></td> </tr> </table>	Meshes Speaker: <i>Timothy Fabian</i>	Correcting Coagulopathy in ACS Speaker: <i>Mark Bowyer</i>
Meshes Speaker: <i>Timothy Fabian</i>	Correcting Coagulopathy in ACS Speaker: <i>Mark Bowyer</i>		
11.10	<table border="1"> <tr> <td>Discussion</td> <td>Discussion</td> </tr> </table>	Discussion	Discussion
Discussion	Discussion		

Saturday 27th June (Continued)		
11.15	5 Short Papers - 4 Minutes Presentation and 2 Minutes Discussion Location: Ed Burke Theatre Chair: Michael Cheatham, Paolo Pelose	6 Mini Papers - 4 Minutes Presentation and 2 Minutes Discussion Location: J.M Syngé Chair: Zsolt Balogh, Scott D'Amours
	The Impact of Intra-Abdominal Hypertension on Secretion of Atrial and Brain Natriuretic Peptides in a Porcine Model Speaker: <i>Athanasios Marinis (ref:90)</i>	Bilateral Paravertebral Block in Complex Therapy in Patients With Intra-Abdominal Hypertension Speaker: <i>Batirov U.B. (ref:86)</i>
	Peritoneal Negative Pressure Therapy Reduces both Peritoneal and Systemic Inflammation and Prevents Abdominal Compartment Syndrome Speaker: <i>Brian D. Kubiak Md (ref:43)</i>	Risk Factors of Developing Intra-Abdominal Hypertension and Abdominal Compartment Syndrome Speaker: <i>Stefania Matano (ref:85)</i>
	Intra-Abdominal Hypertension-Does It Exist Outside Icu? Speaker: <i>Ruth Waldron (ref: 130)</i>	Mechanical Relationship between Thoracic and Abdominal Compartments Speaker: <i>F Ruiz-Ferrón (ref:35)</i>
	The Effect of Positive End-Expiratory Pressure (PEEP) On Intra-Abdominal Pressure Measurements Speaker: <i>Bart De Keulenaer (ref:18)</i>	Fascial Closure and Factors Associated With Mortality in Decompressed Patients With Abdominal Compartment Syndrome Treated With The Vac And Mesh Mediated Fascial Traction (VACM) Speaker: <i>Dr.Thordur Bjarnason (ref:46)</i>
	The Preventive Effect of Dopamine Infusion on Renal Ischemia & Reperfusion Injury in Rats with Abdominal Compartment Syndrome Speaker: <i>Kemal Tolga Saracoglu (Ref: 39)</i>	A Bowel Management System Used For The Management Of Septic Open Abdomen – A New Approach In Intensive Care Speaker: <i>Thomas Wild</i>
		The effect of instillation volume on Intra-Abdominal Pressure readings in daily practice Speaker: <i>Lillia Leius (ref: 104)</i>
12.05	Case Scenario Location: Ed Burke Theatre Panel: <i>Mark Bowyer, Frederick Moore, Andrew Kirkpatrick, Michael Cheatham, Janeth Chiaka Ejike</i>	
12.35	Presentation of Winning Posters, Short and Mini Papers	Location: Ed Burke Theatre
12.50	Summation of Meeting and Close	Location: Ed Burke Theatre
13.06	Register for 5th World Congress on ACS Florida USA	Location: Ed Burke Theatre

See you at the 5th World Congress in Florida.
